Composition: 100 g cont.: Nux vomica D2 0.2 g; Nux vomica D10 0.2 g; Nux vomica D15 0.2 g; Nux vomica D30 0.2 g; Nux vomica D200 0.2 g; Nux vomica D1000 0.2 g; Bryonia cretica D2 0.2 g; Bryonia cretica D6 0.2 g; Bryonia cretica D10 0.2 g; Bryonia cretica D15 0.2 g; Bryonia cretica D30 0.2 g; Bryonia cretica D200 0.2 g; Bryonia cretica D1000 0.2 g; Lycopodium clavatum D3 0.3 g; Lycopodium clavatum D10 0.3 g; Lycopodium clavatum D30 0.3 g; Lycopodium clavatum D200 0.3 g; Lycopodium clavatum D1000 0.3 g; Citrullus colocynthis D3 0.3 g; Citrullus colocynthis D10 0.3 g; Citrullus colocynthis D30 0.3 g; Citrullus colocynthis D200 0.3 g. Contains 35 vol.-% alcohol.

Contraindications: None known.

Side effects: None known.

Interactions with other medication: None known.

Berberis-Homaccord®

30 ml Oral Drops

Composition: 100 g cont.: Berberis vulgaris D2 0.4 g; Berberis vulgaris D10 0.4 g; Berberis vulgaris D30 0.4 g; Berberis vulgaris D200 0.4 g; Citrullus colocynthis D2 0.3 g; Citrullus colocynthis D10 0.3 g; Citrullus colocynthis D30 0.3 g; Citrullus colocynthis D200 0.3 g; Veratrum album D3 0.3 g; Veratrum album D10 0.3 g; Veratrum album D30 0.3 g; Veratrum album D200 0.3 g. Contains 35 vol.-% alcohol.

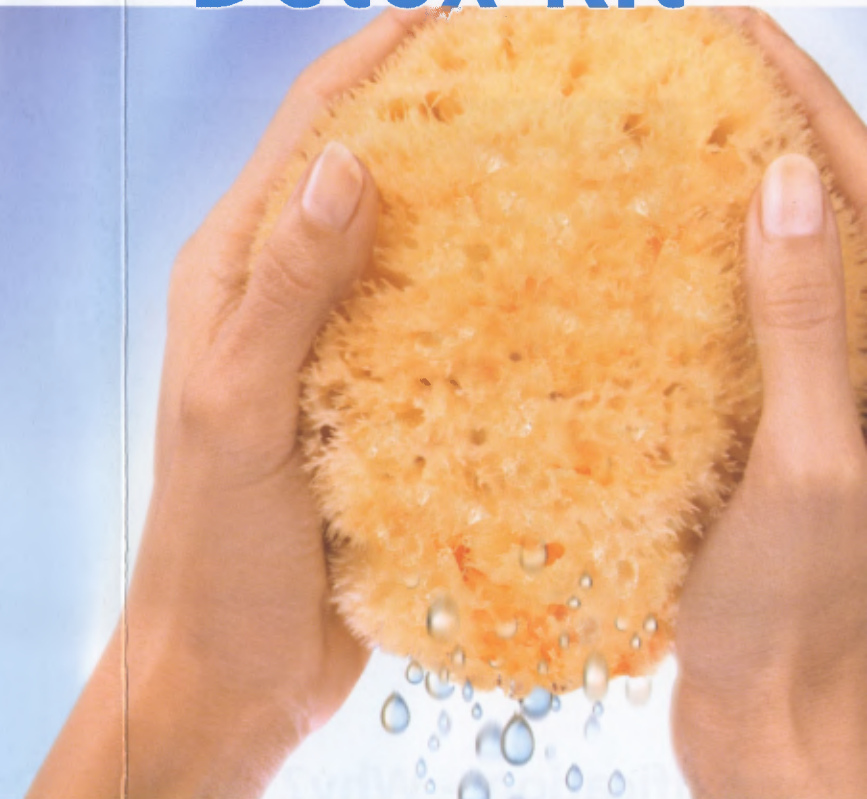

Contraindications: None known.

Side effects: None known.

Interactions with other medication: None known.

Detox-Kit®

Detoxification

- Safe and effective
- Very well tolerated
- Easy to use

Detox-Kit®

Detoxification – Now!

The Heel **Detox-Kit®** combines three homeopathic complex remedies for a comprehensive effect:

-  **Lymphomyosot® Oral Drops**
activate the lymphatic system in order to detoxify the connective tissue and the mesenchyme.
-  **Nux vomica-Homaccord® Oral Drops**
stimulate the gastro-intestinal excretion pathway as well as the hepatic system (liver).
-  **Berberis-Homaccord® Oral Drops**
activate the renal and the biliary systems (kidney, gall bladder).

Detoxification – Why?

Over the last 20 years, the number of people suffering from chronic diseases and allergies has increased considerably.

Chronic diseases and allergies are always accompanied by an impaired immune system. Proper functioning of the immune system can be negatively influenced by metabolic disorders, pollution (i.e. by air or amalgam), an unhealthy lifestyle, or increasing age. The body's excretion pathways may be able to counteract these negative influences for a time, but become overcharged by long-term exposure. This leads to a build-up of toxic substances throughout the body with far-reaching consequences.

Detoxification – How?

-  Limitation of further intake of toxic substances.
-  Establishing a healthier life style (including a sufficient intake of liquids, preferably mineral water – at least 2 liters per day for women and 3 liters for men).
-  Re-activation of the body's own detoxification systems (lymphatic, gastro-intestinal, hepatic, renal and biliary) with the Heel Detox-Kit®.

Indications	Chronic disorders Exposition to pollutants (e.g. formaldehyde, amalgam) Poor general health
Length of treatment	Minimum of 6 weeks (In case of chronic disease, 6 weeks twice a year is recommended.)
Dosage	3 x 10 drops of each preparation daily (one Detox-Kit® will last for 3 weeks).
Administration	Add 30 drops of each preparation to a bottle of mineral water (0.7 – 1.5 l), shake lightly and drink during the course of the day.
